Archives of the Roentgen Ray. (*Formerly* Archives of Skiagraphy. Edited by W. S. Hedley, M. D., and S. Rowland, M. A. Fol. Vol. II, No. 1. July, 1897. The Rebman Publishing Co., Limited, London. W. B. Saunders, Philadelphia.

Pathological Technique. A Practical Manual for the Pathological Laboratory. By Frank Burr Mallory, A. M., M. D., and James Homer Wright, A. M., M. D. 1897. 8vo. 397 pages. W. B. Saunders, Phila.

Transactions of the Chicago Pathological Society from December, 1895, *to April*, 1897. Vol. II. 1897. 12mo. 328 pages. American Medical Association Press, Chicago.

Report of the Sewerage Commission of the City of Baltimore; consisting of Mendes Cohen, F. H. Hambleton and E. L. Bartlett, appointed by joint resolution of the City Council, approved May 25th, 1893. 8vo. 1897. 231 pages. (Plates.) Baltimore, 1897.

An Epitome of the History of Medicine. By Roswell Park, A. M., M. D. Based upon a Course of Lectures delivered in the University of Buffalo. 1897. 8vo. 348 pages. The F. A. Davis Co., Phila.

A Text-Book of the Practice of Medicine. By James M. Anders, M. D., Ph. D., LL. D. 1898. 8vo. 1287 pages. W. B. Saunders, Phila.

INDEX TO VOLUME VIII. OF THE JOHNS HOPKINS HOSPITAL BULLETIN.

Abel, John J. On the blood-pressure-raising constituent of the suprarenal capsule, 151.

Æsthesiometer, 125.

Anatomical relations of the nuclei of reception of the cochlear and vestibular nerves, 253.

Apparatus for sterilizing instruments with formaldehyde; experimental tests, 261.

Arch of aorta, anomaly of, with additional muscle in neck, 234.

Atkinson, A. Duval. Parotitis following visceral inflammation, 204.

Bacillus aerogenes capsulatus (Welch), cases of infection by, 68.

Bacillus aerogenes capsulatus, observations to determine motility of, under anaerobic conditions, 74.

Bacillus proteus Zenkeri in an ovarian abscess, 4.

Bad Nauheim, visit to, 101.

Bardeen, C. R. Certain visceral pathological alterations, the result of superficial burns, 81;—Edinger on "The Development of Brain Paths in the Animal Series," 126.

Barker, Lewellys F. A new æsthesiometer, 125;—Congenital facial diplegia, 131;—Demonstration of Florence's iodine test for seminal stains, 133;—Hæmocytozoa of birds, 52;—Phrenology of Gall and Flechsig's doctrine of association centres in the cerebrum, 7;—Trichinosis, remarks on, 81.

Berkley, Henry J. Lesions induced by action of certain poisons on nerve cell. Study VI. Diphtheria, 23;—Studies on the lesions induced by the action of certain poisons on the cortical nerve cell. Study VII. Poisoning with preparations of the thyroid gland, 137.

Block, E. Bates. Case of typhoid fever in which the typhoid bacillus was obtained twice from the blood during life, 119.

Bloodgood, Jos. C. Rarer cases of, and observation on streptococcus infection, 47;—Cure of hernia by implanting section of sterilized sponge, discussion of, 45.

Books received, 15, 83, 113, 135, 197, 237, 267.

Brain paths in the animal series, Edinger on development of, 126.

Brain tumor, demonstration of probable case of, 215.

Brooks, Wm. K. William Harvey as an embryologist, 167.

Brown, George S. Case of pneumo-cardial rupture, 33.

Brown, T. R. Studies on trichinosis, 79.

Calvert, Wm. J., and Elting, Arthur W. Experimental study of the treatment of perforative peritonitis in dogs by a new method of operation, 143.

Camac, C. N. B. Visit to Bad Nauheim, 101;—Importance of employing pure salts in Schott bath, 214.

Carter, Edward Perkins. Report of a case of polybacterial infection in typhoid fever, 115.

Cataract, second series of operations (one hundred and fifty-eight), 199.

Cavernous angioma of the tunica conjunctiva, case of, 236.

Chatard, Pierre, 185.

Clark, J. G. Function of the peritoneum under normal and pathological conditions, 60;—Postural method of draining dead spaces in the pelvis, 62;—Mechanism of absorption of fluids and solid particles in the peritoneal cavity, 61;—Postural method of draining the peritoneal cavity after abdominal operations, 59;—Rare case of lithopedion, 221;—Report of cases where postural method of drainage was employed, 63.

Clendinen, William Alexander, 189.

Cohen, Joshua I., 190.

Cone, Claribel. Encysted dropsy of the peritoneum secondary to utero-tubal tuberculosis and associated with tubercular pleurisy, generalized tuberculosis and pyococcal infection, 91;—Tuberculosis of the œsophagus, 229.

Cone, S. M. Squamous epithelioma and epithelial hyperplasia in sinuses and bone following osteomyelitis, 146;—Squamous epithelioma in a dermoid of the jaw, 208.

Correspondence, 33.

Cullen, Thomas S. Rapid method of making permanent specimens from frozen sections by the use of formalin, 108;—Demonstration of specimens, 216.

Cushing, H. W. Hæmatomyelia from gunshot wound of the cervical spine, 195.

Dermatitis, a case of, due to the X rays, 17.

Dermatitis, due to the X rays, additional cases of, 46.

Diphtheria, lesions induced by the action of certain poisons on the nerve cell, 23.

Discussion: Dr. Barker, Trichinosis, 81;—Dr. Bloodgood, Cure of hernia by implanting section of sterilized sponge, 45;—Dr. Flexner, Puerperal sepsis due to infection with bacillus aerogenes capsulatus, 28;—Dr. Halsted, Gall stones, 31;—Dr. Osler, Trichinosis, 80; Congenital facial diplegia, 131;—Dr. Platt, Cure of hernia by implanting section of sterilized sponge, 46;—Dr. Reed, Malaria as a water-borne disease, 43;—Dr. Thayer, Malaria as a water-borne disease, 43; Trichinosis, 80;—Dr. Thomas, Congenital facial diplegia, 130;—Dr. Welch, Malaria as a water-borne disease, 42.

Dixon, W. T. Address at presentation of Thorwaldsen's statue of Christ, 1.

Dobbin, George W. Puerperal sepsis due to infection with bacillus aerogenes capsulatus, 24.

Dunham, Edward K. Cases of infection by the bacillus aerogenes capsulatus (Welch), 68;—Observations to determine mobility of bacillus aerogenes capsulatus under anaerobic conditions, 74.

Duval, Douglas F. Palpation of the fœtal heart impulse in pregnancy, 207.

Elting, Arthur W., and Calvert, Wm. J. Experimental study of the treatment of perforative peritonitis in dogs by a new method of operation, 143.

Epithelioma, squamous, and epithelial hyperplasia in sinuses and bone following osteomyelitis, 146.

Epithelioma, squamous, in a dermoid of the jaw, 208.

Eyeballs, congenital motor defects of, discussion on, 129.

Finney, J. M. T. Five successful cases of general suppurative peritonitis treated by a new method, 141;—Typhoid perforation treated by surgical operation, 110.
